DETAILED ACTION

Claims 1 – 9 and 11 – 21 have been examined.

Allowable Subject Matter

Claims 1 – 9 and 11 – 21 are allowable.

The following is an examiner's statement of reasons for allowance:

In the examiner's opinion, none of the prior art references, taken individually or collectively, teach or anticipate the following limitations found in the independent claims; rotation of a seat forward and backward at pivot points located between right and left legs and right and left chair rails and a weight transfer device operable by a rider for transferring the partial weight of the rider forward and backward.

The prior art relating to ski sleds comprises seats constructed to shift in a transverse direction, i.e. side to side, but are lacking in examples of a seat which shifts in a longitudinal direction, i.e. forward and backward. Examples of such transverse motion can be located in Eisenschmid (3,799,564), Muir et al. (4,219,207), and Schwarz (3,528,674).

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to John D. Walters whose telephone number is (571) 272-8269. The examiner can normally be reached on Monday - Friday, 8am - 5pm.
